Panishment of Police Officers.

Mayor Smith, as was ancounced in this column, yesterday, has suspended two and dismissed one of the policemen chosen a few weeks ago by the City Council. This action is one of the utmost importance to the city, for it do velops the fact that one fifth of the entire force upon the peace, life and property of society. has been wanting in the proper discharge of its ducks. The vigilance of the chief executive officer of the city espect of the city espect be too highly commended. The continuance of the police force, mended. The continuance of the police force, with the heavy tox it imposes, is, it is well known, or posed by rome of the leading menbers of Council, and by many cargens. It ought therefore be aspicially incombent upon the policy to so conduct their official dury that the city may field a pride in their trustworthiness and efficiency. The constitution of the State imposes upon the Mayor the duty of seeing that all officers discharge their duty. The charter says:

"He (the Mayor) shall see that the laws of the Corporation be duily exceuted, and in the event of the removal of any officer by his authority, be shall communicate the fact, with the reasons therefore to the City Conseil without delay, that the vacancy may be filled.

We give below the efficial record made is each case by the Mayor for transmission to the City Council:

CHRISTOPHER LYLES.

liples, for "a isconduct in the effice" of pole man of Alexandria elty: The flots in this case are not controverted by

the officer, and are in effect as follows: Mr. Eroch Cook, baving been reported b sail officer for keeping a dog without a hoots, the sail officer, with the knowledge that the acidal was of the troub kind, advised, its igated and rempted sail Cock to take out a beense for an animal of the male kind, but Mr. Cook applied for and obtained the proper

The law regar sellat every keeper of a dog of the mule kind shall may a desired of \$1.50, and for fathers to take out the same provides a penalty of \$5.

The officer at the time he advised the ewager to take the disease for the male kind knew of the difference in the public revenue, small as it ie. It was his duly to have made a correct to part of the nature of the units I, and fadure in this lies "consecuted to office." Much more ar was the voluntary tet of advising abother to violate the law by exceeding the true paters of the taxable subject. The efficers of police are paid out of the public severus; it is the source from where they derive their empluments and not only is it the dety of the good cie zen to re. health of the immaies. per: victations of laws enseted for the purpose of rabing the public revenues, but more esperially the paid public servants cappleyed so for the jurpose of preventing such violations, and whom become to derived troop that source, and who are swere to upho'd the laws; for them to hinder or of since the collection of taxes or dues to the easy is ruoh a high degree of "miscentiact in office" (to call the set by no other name,) as to impose upon the executive of the city what all most know to be an excoedingly unpleasant dury, but to permit such ne's to pass by unno test would be to create wide spread distrust of the farce; to bring it into disregute, and instead of its being an ef ficient arm for the execution of the laws of Council, would bee me the instrument for their practical nullification. I am therefore constraiged by a season of duty to the public good to make the fell wag order:

reby removed from the office of page man of the city of Alexia dris for maconduct to the cilies of policeman is obstruction the collection of the ruble rave cues, such removal to be as of the date of tris order. COURTLAND H. SMITH, Mayer. ALEXANDRIA, VA., Aug. 12.

JOSEPH HOESIMAN.

In the matter of the charge of "ecclest of dury" against Jacobi Herseman, policeman of Alexandria che:

Upon this charge the following facts arshown: That on the clipter August 9th, 1879. the said Joseph Herseman was placed upon duty as a pillerman upon his bear; that about the hour of 2 o'cock to the morning the Cap-

tain of Police, in the discharge of his duty, on deavored to find said policemen on his beat, but tailed to do so; that he gave the regulation signal tour times at different places, which should have been premptly answered by said police mar, but there was so response to the sum mons, and the policeman could not be found. He was therefore either absent from his beat without leave, or esleep while on duty. In the first instance it would be positive not

sleet of duly, and in the second a violation of Sec. 4, Chap. 12, of the Corpornion laws, which provides that "when a policeman shall be tound esles p while upon daty it shall be the duty of the Mayor to bring such policeman to trial, and upon conviction of such charge he shall be immediately removed or suspended from office by the Mayer."

In this case the officer offers no defence ex cept that he did not hear the signal, but there is no explanation of his absence from the beat. The two circumstances that he could not be found and could not hear, justifies the conclu sion that he must have been absent from the post or sakep while on duty, and in either event enforces upon the Mayor as executive officer the discharge of his official duty, and the order will be as fellewe:

Joseph Herseman is hereby suspended from the efficient policemen of the city of Alexandria for neglect of duty, and for being asleep while on du y. Such suspension to be for the period of thir y days from the date of this order.

Alexandrio, Va., Aug. 12 1879. COURTLAND II. SMITH Mayor of Alexadria, Virginia. JAMES T. WALKER.

la the matter of the charge of "neglect of data" seatest James Walker, policeman of Alexandria city:

Upon this charge the following facts are es tab ished by proof and admissed by the officer; That on the night of August the 9 h, 1879, the said efficer deserted and abradened his beaand place of duty at about two o'cleck in the meroing, four hours before his period of duty expired, and was to his home and retired to sleep without obtaining the have of or giving any notice whatever to his superior officer, the Captain of Pelice.

oce. 20 of the sixth article of the constitution provides as fellows:

"There thall be chosen by the che ors of over, ci v a Major, who shall be the chief exe ontive officer thereof, and who shall see that duties of the various city officers are faith fully performed. He shall also have power to surpend or remove such officers for misconduct

thee or neglect of duty. There can be no ques icu that under the fore going tages the efficer was guilty of neglect of duty. If one offer has the liverty of abandoulag his jost of du y all have the same right and one plead the same expuse, and the efficioney and discipline of the police force is at once distroyed, and such corduct can not be

too -everely cond mucd. It is not shown that the officer was in any manne disabled from discharging his duties, but ha much as it appears in this case that the officer had been doing extra duty on the day before the neglect occurred, this will be considered as an extenuating circumstance, and the order will be as follows:

James Walker is hereby suspended from his office of policeman of the city of Alexandria for neglect of duty, in abandoning his beat without leave, such suspension to be for the period of fifteen days from the date of this order.

August 12, 1879. COURTLAND II. SMITH. Mayor of Alexandris.

THE JAIL -The city jail, which is also used by the county, while in m(r) that one sense a forbidding institution, plays to inconsiderable part in town life. It is, as it were, the outer ferers for the defence of the community against the constant; reconsted forces which deprayity and igotrance gather to make war The community remains in the language of the citidel of the Greek cities to protect the tewa. It is by no means formidable in appearance, yet it serves its purpose very well. It was built by the United States in 1826-77, and is now quite an old building. The cutting of its iron window bars has been so offen effected that there is sexically an old grating that does not show signs of having been mended, but last year new iron gratings were placed outside of the old gratings so that inmates of the jail who desire to break out have, like gymnests and bibulous lawyers, a double set of bars to prac tice at. The jail was at first located at the market square, and was then removed to the town cleek, &2, a proposition was made to build a new jul. Congress very generously au therized the town to tax itself and build our, to the matter of the charge against Civistopher | tut that did not sais the city court, and no jeil was built. But ten years later the old jail be had to build the jail. In May, 1826, the following to: passed: "And the said commis ioters shall also select

a size in the county of Alexandria for a county is !, ou which it shall be the duty of the Com! missioner of Public Buildings to cause a county fail for the city and county of Alexandria to be erected on a plan to be approved by the President of the United States. Hed there is hereby appropriated for the building of said jail the sum (1 \$10 000, to be paid out of any money in the freasury not otherwise appropriated."

Under this pet the jail was built. The fail is in charge of City Surgeant Lucis, with Bereard Cise as jailer, and Theodore feed as assistant. There are now confined in jul 11 persons, three white and eight colored. Of the latter five are wemen. There are also two babies in jai', but the sins of the parents do not seem as yet to be visited on their children, for they at pour to flourish, and they suck like steam pumps. The interior jail is as clean as water and as white as lime can make it. Even the floors try whitewashed. Two physiclass visit it every morning and see to the
